

FOOD FINDER

Helping Connect People With Food

Stephen Barton, Hannah Kaufman & Hannah Mize

PROBLEM STATEMENT

23.5 million Americans live in **food deserts** where access to affordable, healthy, and nutritious food options are extremely limited.

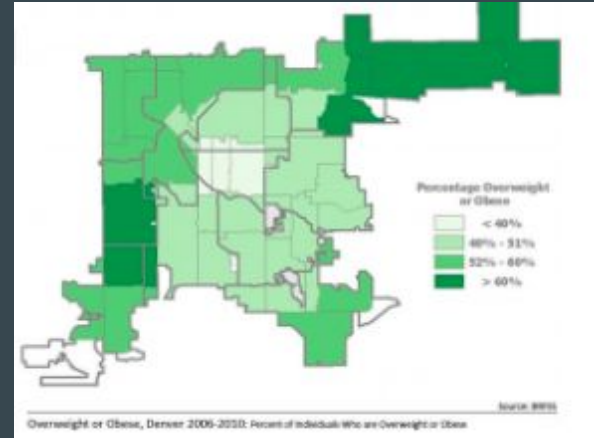

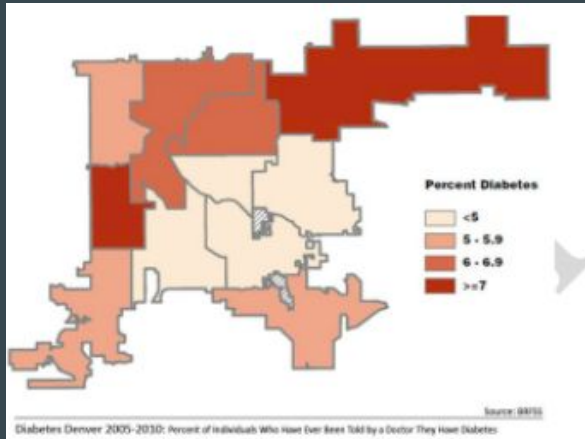

People living in these areas have higher rates of obesity, cardiovascular disease, diabetes, and other health issues.

PRODUCT VISION

This Mobile site aims to utilize community resources to help deliver nutritious food to those with limited access while educating the users by providing them with recipes for healthier meals.

KEY INSIGHTS

The Globeville / Elyria-Swansea community needs access to not only healthier food but also education on what is healthy and how they can implement a healthier diet into their life.

KEY INSIGHTS

The surrounding Globeville-Elyria Swansea community is willing to provide time and resources to help those in need.

CLOSING STATEMENT

This solution effectively utilizes pre-existing resources to provide people in food deserts with affordable, healthy food while addressing the prevalent issue of health education.
